DEWORMING IS OUR SPECIALTY

SAFE-GUARD® feed formulations offer a convenient and effective way to take your strategic deworming program to the pasture. Powered by fenbendazole, SAFE-GUARD goes to the gut and kills parasites, even when ingested in small amounts. From blocks to pellets to cubes, feed formulations offer an easy, hands-free option for summer and fall deworming. Break parasite life cycles and prevent shedding back onto the pasture with SAFE-GUARD.

① SPRING TURNOUT

Choose from a variety of SAFE-GUARD product options to deworm at turnout or grass green-up.

② SUMMER FOLLOW-UP

Deworm with SAFE-GUARD feed formulations on the pasture.

③ FALL FINISH

Finish the year by deworming at the end of grazing season with your choice of SAFE-GUARD product.

Protect your herd against profit-eating parasites.
Add the SAFE-GUARD Program to your parasite management protocol.
