

External Parasite Control for Livestock

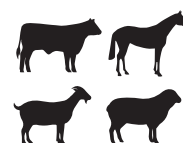

MINUTE

Controlling External Parasites is Critical for Livestock Producers

- External parasites such as lice, flies, ticks, grubs and mites feed on body tissues such as blood, skin and hair and may transmit diseases such as pinkeye and anaplasmosis.
- The right ecto-parasiticide can help producers ensure animals remain healthy, productive and comfortable, while also protecting their operations from economic losses caused by parasite infections and animal discomfort.

Multi-Species Protection with ULTRA BOSS® Pour-On Insecticide

- Fast acting, broad-spectrum pour-on insecticide that protects against lice, horn flies and face flies. Also aids in control of horse flies, stable flies, mosquitoes, black flies and ticks.
- **Active Ingredients: 5% Permethrin and 5% Piperonyl butoxide.**
- Approved for use on: Lactating and non-lactating dairy cattle, beef cattle, calves, horses (Not intended for human consumption), lactating and non-lactating dairy goats.
- Also approved for use on: Sheep for sheep keds and lice.

Long Lasting Protection with ULTRA SABER™ Pour-On Insecticide

- Long-lasting option providing control of horn flies and lice in beef cattle and calves in a pour-on.
- **Active Ingredients: 1% Lambdacyhalothrin synergized with 5% Piperonyl butoxide.**
- Approved for use on: Beef cattle and calves.

Double Coverage with DOUBLE BARREL® VP Insecticide Ear Tags

- Combines two active ingredients, which eliminates need for rotation and reduces resistance development.
- **Active Ingredients: 6.8% Lambdacyhalothrin and 14% Pirimiphos-methyl.**
- Approved for use on: Beef cattle and calves and non-lactating dairy cattle.
- Use 2 tags per animal, one in each ear, for a quick knock-down and up to 5-months of protection from face flies.

Multi-Purpose Options with SYNERGIZED DELICE® Pour-On and Premise Spray

- Ready to use pour-on or premise spray targets lice, face flies, horn flies and other flies.
- **Active Ingredients: 1% Permethrin and 1% Piperonyl butoxide.**
- Approved for premises involving: Kennels, horses, poultry, swine, cattle, sheep, and meat processing plants.
- Approved for use on: Beef cattle and calves, lactating and non-lactating dairy cattle and calves.
