

Social Media Made Easy!

Engage Your Customers With Merck Animal Health Digital Marketing

Promoboxx is a digital marketing platform that allows your store/clinic to easily promote relevant branded content via social media. Create your free account and gain access to high-quality content at your fingertips. All marketing content is co-branded and customizable for your business.

What you get...

- Customizable marketing content from Merck Animal Health
- An easy way to promote that content via Facebook, Instagram, and Twitter
- Automated scheduling features for hands-off marketing
- Reporting to track your success
- Access to the Promoboxx support team to answer any and all questions!

How Promoboxx Works...

Create & Invite

Connecting Your Store/Clinic Facebook Page

Turning on Facebook Automation

Stay Organized with Scheduling

Stores/clinics can manage hours of social media marketing in one sitting! Scheduling allows stores/clinics to select and customize their content – then tell Promoboxx when to share it on their behalf.

Maximize Time with Automation

Automation helps stores/clinics save the maximum amount of time while still reaping the benefits of high-quality content. Once enabled, the brand will automatically share new content on Facebook for the store/clinic.
