

Biomark® PIT Tags are one of the highest performing RFID tags on the market today for use in fisheries, aquaculture, wildlife research, and monitoring. The tags are encapsulated in biocompatible glass and provide 100% unique identification.

Available in different sizes, performance levels and packaging options to meet your specific application needs and budget.

FEATURES

- Enhanced read range performance
- Low-frequency 134.2 kHz operation
- 64-bit identification
- ISO 11784/11785 FDX-B compliant
- Biocompatible glass encapsulation

APPLICATIONS

- In-vivo Animal Identification
 - Fisheries (marine & fresh water)
 - Small & Large Mammals
 - Reptiles & Amphibians
 - Birds & Bats
- General Object Identification
 - Rocks
 - Trees
 - Plants
