

EquiTrace

Trace and Track Horse Health

IDENTIFY

Rapidly ID each individual horse with every scan*

COMMUNICATE

Share recorded info among authorized users no matter their location

MONITOR & RECORD

Horse Health Data & Medication Records

- Can be entered and updated effortlessly

Temperature

- Captured instantly when used with **Bio-Thermo®** microchip and **GPR+** microchip reader

GPS Location

- Option to log location with every scan

SCAN

- Easy to use with ISO**, 15-digit standard microchip used in horses
- Scan with the Global Pocket Reader™ Plus (GPR+) and the HomeAgain® UWSR+ microchip readers

“

"The app / chip / scanner combination has saved at least two foals, by finding high fevers early before any other signs appeared."

– Rachael Kempster
Kinsale Stud
Yorkshire, UK
