

Mometamax Single™

(gentamicin, posaconazole, and mometasone furoate otic suspension)

THE SINGLE LIFE
has never been better

A single in-clinic dose provides more than 4 weeks of relief

Mometamax Single™ is the only single-dose treatment approved to treat *Pseudomonas aeruginosa*.

- Highly effective ingredients provide **triple-action relief**
- **Built-in compliance** takes the uncertainty out of treatment

IMPORTANT SAFETY INFORMATION: Mometamax Single is for otic use in dogs only. Do not use in cats. Mometamax Single should be administered by veterinary personnel. Do not use in dogs with known tympanic membrane perforation. The integrity of the tympanic membrane should be confirmed before administering the product. Reevaluate the dog if hearing loss or signs of vestibular dysfunction are observed during treatment. Do not use in dogs with known or suspected hypersensitivity to gentamicin, posaconazole, or mometasone furoate. Avoid contact with eyes. For complete instructions and safety information, refer to the product label.
