The Brand You Trust

SAFE-GUARD® Canine Dewormer is the brand trusted by outdoor dog owners to treat the parasites that most affect their dogs.

safe-guard® Canine Dewormer
(fenbendazole)

Treat More Worms

Why settle for less? Treat and control the worms of greatest risk to the outdoor dog.

Using Fewer Drugs

SAFE-GUARD® treats all these worms with only one compound, fenbendazole. So you can treat more with less, minimizing your dog's chemical exposure.

With Proven Safety¹

SAFE-GUARD® is safe for puppies 6 weeks of age or older and pregnant females as well as adult dogs of all breeds. So it's never too early or too late to start.

Consult your veterinarian for assistance in the diagnosis, treatment and control of parasitism.

Approximately 1% of dogs had vomiting associated with the use of this product. SAFE-GUARD® Canine Dewormer has no known drug interactions and is an ideal complement to monthly heartworm prevention products, which may not protect against all four major types of intestinal worms.
