# The Brand You Trust

**Safe-Guard® Canine Dewormer is the brand trusted by outdoor dog owners to treat the parasites that most affect their dogs.**

## safe-guard® Canine Dewormer (fenbendazole)

### Treat More Worms

Why settle for less? Treat and control the worms of greatest risk to the outdoor dog.

- ✓ TAENIA TAPEWORMS
- ✓ ROUNDWORMS
- ✓ HOOKWORMS
- ✓ WHIPWORMS

### Using Fewer Drugs

SAFE-GUARD® treats all these worms with only one compound, fenbendazole. So you can treat more with less, minimizing your dog's chemical exposure.

### With Proven Safety<sup>1</sup>

SAFE-GUARD® is safe for puppies 6 weeks of age or older and pregnant females as well as adult dogs of all breeds. So it's never too early or too late to start.

**Consult your veterinarian for assistance in the diagnosis, treatment and control of parasitism.**

Approximately 1% of dogs had vomiting associated with the use of this product. Safe-Guard® Canine Dewormer has no known drug interactions and is an ideal complement to monthly heartworm prevention products, which may not protect against all four major types of intestinal worms.
