

# The Studies Prove True

*Young horses are at increased parasite risk due to their developing immune systems.*

*Ascarids can be extremely dangerous and potentially fatal.*

*Fenbendazole is the only compound proven effective against ivermectin-resistant ascarids.<sup>1</sup>*

**Trust Fenbendazole to protect your foal.  
Reach for the blue.**

Consult your veterinarian for assistance in the diagnosis, treatment and control of parasitism.

Do not use in horses intended for human consumption. When using PANACUR® (fenbendazole) Paste 10% concomitantly with trichlorfon, refer to the manufacturers labels for use and cautions for trichlorfon.

<sup>1</sup> Reinemeyer CR, Vaala, WE. Larvicidal efficacy of fenbendazole against a macrocyclic lactone-resistant isolate of *Parascaris equorum* in foals. 2010 AAEP Proceedings.
